

ALEC RODRÍGUEZ

Multidisciplinary Designer
Madrid, Spain

I am a multidisciplinary designer based in Madrid. My work focuses on creating products that, in addition to being visually appealing and communicating effectively, manage to enhance the user's experience and quality of life. My diverse background allows me to tackle complex projects from a holistic perspective, articulating various disciplines and tools. My scope of work ranges from motion graphics and UX/UI design to graphic design and 3D modeling.
